PROJECTS

CryptoCash NEWS | <https://github.com/ChainRxn12/CryptoCashNews> | <https://jmanauth.github.io/CryptoCashNews/>

- **Summary:** Data and news source for Cryptocurrency
 - Working with a team, this application was developed to display articles and data from the top 100 Cryptocurrencies. The application uses two free APIs and styling with Bulma to create a multi-device display for quick and easy cryptocurrency information.
- **Role:** CSS Styling
- **Tools:** HTML, CSS, Bulma, JavaScript, JQuery, API

Team Generator | <https://github.com/ChainRxn12/team-generator> | <https://chainrxn12.github.io/team-generator/>

- **Summary:** An application that generates a webpage from the command line and displays a team's basic info including quick access to emails and Github profiles.
 - This project was made by creating an employee class and extending that class to different roles. Testing the classes with Jest insured that any arguments that were given in inquirer prompts would return the correct values.
- **Role:** Sole Author
- **Tools:** HTML, CSS, JavaScript, Node, Jest, Inquirer

Schedule.Me | github.com/ChainRxn12/schedule.me | chainrxn12.github.io/schedule.me/

- **Summary:** A simple hourly day scheduler.
 - Taking advantage of a Bootstrap layout design and Moment, this application can schedule a typical workday flow of scheduling, color coding the time in the past, present, and future.
- **Role:** Sole Author
- **Tools:** HTML, CSS, Bootstrap, JavaScript, JQuery, Moment
